INK MIXERS

**Robust,
quick,
convenient.**

FM 20

FM 12

FM 5

Well-tried and robust
ink mixers for both printers
and ink manufacturers.
For quick and intensive
mixing of printing ink.

Quick and thorough
mixing is achieved by the
up-and-down motion
of the mixing arm, and the
simultaneous rotation
of the ink container.
No bubbles, no lumps.

The ink containers
for models FM 12
and FM 20 are made
of a special cast
aluminium, polished
inside.

The ink containers
for model FM 5
are made of high-
grade stainless steel.

A suggestion for our customers,
who are often mixing several
colours:
Additional containers and mixing
arms can be ordered, avoiding
cleaning after every mixing,
leaving the unit free for the next
task.

FM 5 *Table top model*

Capacity	0.5–5.0 kg
Power requirements	0.12 kW A.C.
Dimensions (LxWxH)	428 x 280 x 495 mm
Height with turned up mixing arm	760 mm
Net weight	22 kg
Up-and-down motion of the mixing arm	automatic and adjustable
